WORK EXPERIENCE

Women++ Switzerland Frontend developer

September 2023-November 2023

Participated of the deploy(impact) program and worked on a project with a team of 8 people building an application for a Swiss company.

I was in charge of the Frontend such as building reusable components with React.js , Typescript , Ant-design and styled components. Also I made functionalities and features for the application for example functional progress bar and chart.

Additionally I created story components with Storybook library,do pair programming and mentoring a Trainee developer .

Tech stack: React.js, Typescript,Ant-design,Storybook,PostgreSQL, Supabase, Python, Git

Softtek Fullstack developer

February 2022- Present

- Build features for the main app for a company in the Healthcare field with React.js and JavaScript.
- Develop UI with HTML, CSS ,React.js,and Bootstrap.
- Create functionality with React.js and TypeScript.
- Implement functionality in Node.js ,REST api and integrate it into the Front
- Attend development meetings using Microsoft Teams, Trello, SCRUM and GitHub.
- Participate in the development of the products by creating clean and reliable code
- Apply DRY and good coding practices.

Accuchain - Phoenix, U.S.A Front end Engineer

August 2021 - December 2021

- Built features to enhance the user experience (HTML,CSS,Angular)
- Fixed bugs and tested code

Korean- Beginner

Japanese- Beginner

Italian - Beginner

Others

Italian citizenship

COURSES

Udemy *October 2021 - December 2021*

-Data Structures & Algorithms

Udemy *February 2021 - March 2021*

-React Native fundamentals

EDteam *January 2021 -April 2021*

-ReactJS & Redux +Node.js

-API rest for beginners

-Java fundamentals

Udemy *October 2020 - December 2020*

-Angular - Object-oriented programming

EducacionIT *February 2019 -September 2019*

- HTML & CSS - Introduction to programming

-Javascript

Google Activate *December 2018 -March 2019*

-Introduction to Web Development I & II

PROJECTS AND FREELANCE

Social media app

I created this Social media app with HTML,CSS, React , Material UI, Auth0, and Netlify .

Features that the app have :

- Login/Logout (Auth0)
- Beautiful design and Responsive for all devices
- Dark and Light mode (Toggle)
- Heart icon for give "like " to photos

Link : <https://social-app-korea.netlify.app/>

Loans website

I created this website for a Loans company with HTML,CSS, Javascript , Boostrap , Email.js and firebase .

The highlight of the website is the little flag on the navbar, you can change the language just by a click (from Spanish to English and English to Spanish) and a contact form using service email function of Email.js .
